

CSS Grouping and Nesting Selectors

Grouping:

```
h1{color:green;}  
h2{color:green;}  
p{color:green;}
```

```
h1,h2,p{color:green;}
```

Nesting:

```
<html><head>  
<style>  
p{color:blue;text-align:center;}  
.marked{background-color:red;}  
.marked p{color:white;}  
</style>  
</head>  
<body>  
<p>This is a blue, center-aligned paragraph.</p>  
<div class="marked">  
<p>This p element should not be blue.</p>  
</div>  
<p>p elements inside a "marked" classed element keeps the alignment style, but has a different text color.</p>  
</body></html>
```
